

# Targeted Solutions for Quieter & Safer Industrial Environments

## OPTIMIZE ACOUSTICS. REDUCE NOISE. IMPROVE LIVES.

Most industrial spaces are filled with loud electro-mechanical systems like conveyors, automation equipment and material handling systems, power generation and energy storage equipment, HVAC systems, and server racks that generate disruptive and unhealthy noise.

### SOLAS by Soundcoat helps to:

- Comply with noise & safety regulations
- Enhance worker comfort
- Mitigate noise-related fatigue
- Improve worker communication

INDUSTRIAL FACILITIES - DISTRIBUTION CENTERS  
 WAREHOUSES - WORKSTATIONS - MANUFACTURING  
 OFFICES - COMMERCIAL & PUBLIC SPACES  
 NEW CONSTRUCTION & RETROFIT

### Sound Optimization & Lightweight Acoustic Systems

SOLAS is a portfolio of products including Grids, Cubes, Panels, and Wedges that are configurable for both existing spaces and new developments.

The impact of SOLAS product performance can be anticipated through our proprietary **Soundcoat 360 Solution™**, which includes on-site testing, predictive analysis, acoustic modeling, and validation.
